February 8, 2010

The Fourth Nagasaki Global Citizens' Assembly for the Elimination of Nuclear Weapons sends our message of support and solidarity to the participants in the Trident Ploughshares Peaceful Blockade of the UK Atomic Weapons Establishment at Aldermaston on February 15, 2010. Gathered in Nagasaki, February 6-8, we citizens of Japan and the world, including Hibakusha (atomic bomb survivors) and our families, demand that no-one should ever again suffer from these terrible and inhumane weapons of mass destruction. Any use of nuclear weapons would be a crime against humanity. We join in your call on the British Government to cancel your Trident nuclear weapons and not replace them, and to become a global leader in supporting the UN Secretary-General's disarmament plan and President Obama's call to build the "peace and security of a world without nuclear weapons".

Hideo Tsuchiyama
Chairman
Organizing Committee of the Nagasaki Global Citizens' Assembly
for the Elimination of Nuclear Weapons
